CONFIDENTIAL INVESTMENT PROSPECTUS — APRIL 2026

VALUE TO VICTORY, LLC

Series Seed *Investment Prospectus*

AI-powered personal development platform with 14 market verticals, a strategic fitness merger, and $243B+ addressable market. Live product, active revenue, infrastructure ready to scale.

$1,750,000 for *25% Equity*

Pre-money: $5,250,000 | Post-money: $7,000,000 | Includes FitCarna merger

75%
FOUNDER EQUITY
Shawn E. Decker

25%
INVESTOR EQUITY
$1.75M capital infusion

REVENUE SHARING & INVESTOR RETURNS

Preferred Return	**8% annually ($140,000/year) paid before any distributions**
Quarterly Distributions	**25% of net operating income, paid quarterly after preferred**
Revenue Participation	**25% of all licensing & certification fees from Day 1**
Liquidation Preference	**1x non-participating — investor recovers $1.75M first at any exit**
Anti-Dilution	**Weighted-average anti-dilution protection through Series A**
Board Seat	**1 board seat + quarterly financial reporting**
Pro-Rata Rights	**Right to participate in future rounds to maintain 25%**

IPO SHARE PRICING MODEL

10,000,000 authorized shares. Pricing progression from seed through public offering:

STAGE	SHARES OUTSTANDING	VALUATION	PRICE/SHARE	INVESTOR HOLDS
Seed (Now)	10,000,000	$7.0M	**$0.70**	2,500,000 shares
Series A (Mo 18–24)	12,500,000	$30M–$50M	**$2.40–$4.00**	2,500,000 shares
Series B (Mo 30–36)	15,000,000	$80M–$130M	**$5.33–$8.67**	2,500,000 shares
IPO (Mo 36–48)	**18,000,000**	**$150M–$250M**	**$8.33–$13.89**	**2,500,000 shares**

Seed Investor Value at IPO

2,500,000 shares purchased at $0.70 = $1.75M invested. At conservative IPO price of $8.33/share: **$20.8M value (11.9x return)**. At upside IPO of $13.89/share: **$34.7M value (19.8x return)**. Plus cumulative revenue sharing distributions received pre-IPO (estimated $400K–$800K).

WHAT EXISTS TODAY

MARKET & COMPETITIVE POSITION

$243B+	5	14	0
COMBINED TAM	MARKETS LIVE NOW	VERTICALS BY 2028	DIRECT COMPETITORS

PUBLIC & FUNDED COMPETITORS — WHERE VTV WINS

COMPANY	VALUE	WHAT THEY DO	VTV ADVANTAGE
Wiley/DiSC (WLY)	$1.97B	4-dim assessments	5 pillars + AI + coaching + couples
Match Group (MTCH)	$8.3B	Photo swiping	Whole-life scoring + group privacy
BetterUp	$4.7B	Human coaches $500+/hr	AI coaching at $29/mo, infinite scale
Peloton (PTON)	$1.97B	Fitness only	FitCarna + 4 non-physical pillars
Gallup	$500M+	34 static themes	Dynamic scoring + Time Multiplier
Noom	**$4.0B**	**Weight loss only**	**5 pillars, not just physical**

Strategic Merger: FitCarna (Carna Coaching)

FitCarna merges into VTV bringing 300+ existing clients, a custom training app, 8-Week Challenge programs, and the Carna Method coaching system led by Cameron Decker. Already integrated in production: VTV assessment auto-refers low-fitness scorers to FitCarna coaching. This is the first closed-loop vertical — assessment identifies gap, partner fills it, data flows back, scores improve. Revenue from Day 1. Template for every future vertical expansion.

FIVE-LAYER COMPETITIVE MOAT

1. **Privacy-First Architecture**
   Users control employer visibility per pillar. The enterprise sales unlock.
2. **Cross-Pillar Impact Matrix**
   20 directional algorithms generating prescriptive roadmaps.
3. **Time Multiplier**
   Proprietary 0.1x–2.0x formula. Defensible IP, no competitor has this.
4. **Zero-Cost AI Coaching**
   Autonomous AM/PM emails. BetterUp: $500/session. VTV: $29/mo.
5. **Relationship + Faith + Fitness**

5 Couples mode, dating, devotionals, FitCarna. No platform touches all three.

END OF CORE PROSPECTUS

Verification *Appendix*

The following pages contain detailed verification data, technical architecture, competitive analysis, market breakdowns, NDA structure, and supplemental documentation. Print separately or provide under NDA.

APPENDIX A — FULL COMPETITIVE ANALYSIS

COMPANY	TICKER	MARKET CAP	CATEGORY	GAP VTV FILLS
Wiley / DiSC	WLY	$1.97B	Assessments	Static 4-dim, no AI, no couples, no privacy
Hims & Hers	HIMS	$4.4B	Telehealth	No behavioral scoring or multi-pillar analysis
Paylocity	PCTY	$5.1B	HR Tech	Payroll-only, no personal development
Paycom	PAYC	$11.7B	HR Tech	No assessment engine or coaching layer
Duolingo	DUOL	$4.2B	EdTech	Single-skill, no multi-dimensional scoring
Coursera	COUR	$979M	EdTech	Static content, no personalized scoring
Peloton	PTON	$1.97B	Wellness	Physical only, no other pillars
Talkspace	TALK	$865M	Mental Health	Human therapists $300+/mo vs VTV AI $29/mo
LifeStance	LFST	$2.84B	Mental Health	Clinical, insurance-dependent
Udemy	**UDMY**	**$930M**	**Learning**	**Course marketplace, no personalization**

VENTURE-BACKED COMPETITORS

COMPANY	VALUATION	CATEGORY	GAP VTV FILLS
BetterUp	$4.7B	Coaching	Human coaches $500+/session, VTV AI at $29/mo
Noom	$4.0B	Health	Weight loss only, no cross-pillar scoring
Headspace	$3.0B	Meditation	No assessment, scoring, or coaching
Calm	$2.0B	Wellness	Meditation only, no scoring or prescriptions
Gallup	$500M+	Assessments	Static, one-time, no AI or dynamic scoring
Cornerstone	**$5.2B**	**Talent**	**LMS focus, no personal development scoring**

FEATURE MATRIX: DIRECT COMPETITORS

CAPABILITY	DISC	GALLUP	BETTERUP	EHARMONY	VTV
Privacy controls	No	No	No	No	**Yes**
AI coaching	No	No	No (human)	No	**Autonomous**

Couples / dating	No	No	No	Partial	**Full + matching**
Fitness integration	No	No	No	No	**FitCarna merged**
Time multiplier	No	No	No	No	**0.1x–2.0x**
Faith option	No	No	No	No	**Yes**
Book-to-system	**No**	**No**	**No**	**No**	**Full pipeline**

APPENDIX B — MARKET VERTICALS & INTEGRATION SPEED

MARKET	TAM	ENTRY POINT	STATUS
Corporate HR	$22B	Team assessments + privacy	Live
Executive Coaching	$15B	AI replaces $500/hr coaches	Live
Couples Counseling	$3.2B	Couples mode + love bank	Live
Faith & Ministry	$1.8B	Church licenses + devotionals	Live
Fitness & Wellness	$87B	FitCarna merger + training app	Merged
Real Estate	$45B	Appraisal index + VR + agent marketing	Q2 2027
Publishing	$8B	Book-to-system licensing	Q3 2027
Dating & Matching	$9.6B	5-pillar compatibility + group privacy	Q3 2027
Recreational	$4.5B	Activity matching (fitness, travel)	Q4 2027
Education	$12B	Student development scoring	Q4 2027
Healthcare	$18B	Multi-pillar wellness scoring	Q1 2028
Financial Services	$9B	Financial literacy via Numbers pillar	Q2 2028
Insurance	$6B	Behavioral risk scoring	Q3 2028
Veterans	$2.4B	Transition readiness	Q2 2028
Total	**$243B+**	**Single platform, 2–4 weeks per vertical**	

APPENDIX C — PLATFORM EXPANSION ENGINES

1. BOOK-TO-SYSTEM LICENSING ENGINE

Converts any book into a live coaching/assessment system. 500K+ self-help/business titles published annually. Licensing: $2,500–$10K setup + $200–500/mo + 10–15% revenue share.

50 licensees at $5K/mo avg **$3M ARR from licensing alone**

2. REAL ESTATE INTELLIGENCE

Appraisal index system with <4% error vs Zillow's 6.9%. VR property visualization. Agent marketing automation. Built on 23+ years appraiser expertise.

Agent subs + API + brokerage licenses **$99–$2,000/mo + $0.10–$0.50/query**

3. WHOLE-LIFE DATING & MATCHING

5-pillar compatibility matching vs photo swiping. Group privacy controls (deselect communities). 30-day challenges. Standards-based dating riding the anti-swipe cultural shift. $9.6B market.

Free assessment funnel → $19–$79/mo premium **4–6x retention vs swipe apps**

4. FITCARNA FITNESS VERTICAL (MERGED)

300+ clients, 12K+ lbs lost, custom training app, 8-Week Challenges, in-person gym. Assessment auto-refers low-fitness scorers. Closed-loop: assess → coach → data back → scores improve.

Day 1 revenue from existing client base **$12K+/mo immediately, scaling to $65K/mo**

APPENDIX D — IP PROTECTION & NDA STRUCTURE

VTV operates a deliberate two-tier information strategy. The assessment is the public-facing product. The algorithms, infrastructure, and integration capabilities are disclosed only under NDA — driving premium licensing and higher valuations.

PUBLIC LAYER (NO NDA REQUIRED)

- P.I.N.K. assessment experience
- Subscription tiers and pricing
- AI coaching outputs (what users receive)
- Couples/team features and dating
- Published content and social presence
- Competitive positioning (surface level)
- Market verticals served

NDA-PROTECTED LAYER

- Cross-pillar impact algorithms (20 relationships)
- Time Multiplier formula (exact implementation)
- BiaBox microservice architecture (12 services)
- Book-to-system conversion pipeline
- Appraisal index methodology
- AI prompt architecture & personalization logic
- Database schema (39 tables)
- Full API documentation (88 endpoints)
- Patent-pending algorithms (10 innovations, 5 provisionals filing — see Appendix G)

NDA TERMS & STRUCTURE

NDA Duration	**3 years from date of disclosure**
Scope	**All proprietary algorithms, architecture, and business methods**
Permitted Disclosure	**Legal/financial advisors under same NDA obligations**
Non-Compete	**24 months — no competing assessment/coaching platform**
Non-Solicitation	**24 months — no hiring VTV employees or contractors**
Remedies	**Injunctive relief + actual damages + attorney fees**
Governing Law	**Commonwealth of Virginia**

Why This Drives Higher Valuations

Prospective licensees and acquirers see a coaching product from the outside. Under NDA, they discover a multi-vertical platform engine — the “aha moment” that justifies premium multiples. Competitors cannot reverse-engineer from the front

end. By the time they understand the depth, VTV has market position and licensing lock-in.

APPENDIX E — DATA ASSET & EXECUTION ROADMAP

Per Assessment	**80–120 scored data points across 5 pillars**
Per FitCarna Client	**Workout logs + body composition + pillar cross-reference**
Per Dating User	**Compatibility patterns + group preferences + challenge outcomes**
Per Enterprise Team	**Aggregate dynamics, distributions, gap analysis**
100K users across 14 verticals	**10M+ cross-dimensional data points — exists nowhere else**

24-MONTH EXECUTION MILESTONES

MONTHS 1–3: FOUNDATION

Hire core team, launch mobile dev, begin enterprise pilots

Target: 100 B2C subs, 2 enterprise pilots, FitCarna fully integrated

MONTHS 4–8: ACCELERATION

Mobile app, enterprise conversions, coach certifications, first 10 book licensees

Target: 500 subs, 100+ enterprise seats, $25K MRR

MONTHS 9–14: GROWTH

White-label launch, church partnerships, dating MVP, RE appraisal beta

Target: 2,000 subs, 500+ enterprise seats, $100K MRR, breakeven

MONTHS 15–20: SCALE

Profitability, API marketplace, international prep, SOC 2

Target: 5,000 subs, 1,500+ enterprise seats, $250K MRR

MONTHS 21–24: POSITION

Series A readiness or acquisition positioning

Target: 7,500+ subs, 2,500+ enterprise seats, $400K+ MRR, $8.6M ARR

APPENDIX F — RISK FACTORS

- **Market risk:** Personal development is competitive. Differentiation depends on sustained privacy advantage and AI capability.
- **Execution risk:** Scaling from founder-led to team-led requires hiring, process, and culture investment.
- **Enterprise sales cycle:** B2B deals take 3–6 months. Revenue ramp may lag projections by 1–2 quarters.
- **Technology risk:** AI landscape changes rapidly. Platform must continuously adapt to new models.
- **Regulatory risk:** Data privacy regulations (GDPR, CCPA) require ongoing compliance investment.
- **Key person risk:** Current operations are founder-dependent. Early hires must reduce this dependency.
- **Dating market risk:** Highly competitive; user acquisition costs may be higher than projected.
- **Real estate risk:** Appraisal index accuracy must be validated at scale before full market entry.
- **Merger integration risk:** FitCarna integration requires operational alignment and shared technology adoption.

Important Legal Notice: This document is provided for informational purposes only and does not constitute an offer to sell or a solicitation of an offer to buy any securities. Any investment in Value to Victory, LLC involves significant risks including the potential loss of the entire investment. Past performance is not indicative of future results. Financial projections are forward-looking statements based on current assumptions and are not guarantees. Prospective investors should conduct their own due diligence and consult with legal, financial, and tax advisors before making any investment decision. This document is confidential and intended solely for the named recipient. Revenue sharing terms are subject to final legal documentation. IPO projections are illustrative only and depend on market conditions, regulatory approvals, and company performance. Share prices at any stage are estimates and may differ materially.

APPENDIX G — PATENT PORTFOLIO & IP FILINGS

Analysis as of April 2026. VTV qualifies as a USPTO micro entity (80% fee discount). All Tier 1 provisionals recommended within 60 days.

Tier 1 — High Novelty (Strong Patent Candidates)

1. P.I.N.K. Framework with Time Multiplier

Multi-dimensional assessment where one pillar (Time) operates as a 0.1x–2.0x mathematical multiplier on all other pillar scores. No existing patent uses one dimension as a force multiplier on peer dimensions.

Prior Art	**None found — all existing systems use additive scoring**
Novelty	**STRONG**
Alice Risk	**Medium — frame as specific technical improvement to accuracy**

2. Cross-Pillar Impact Matrix

20 directional, weighted relationships between 5 life domains generating prescriptive coaching recommendations from cross-domain causal modeling.

Prior Art	**None in human life assessment with prescriptive outputs**
Novelty	**STRONG**
Alice Risk	**Medium-Low — tied to specific recommendation algorithms**

3. Privacy-First Assessment Architecture

Users control per-pillar visibility to employers. Employers receive aggregate-only team insights. No individual scores exposed without granular consent.

Prior Art	**None with per-dimension user-controlled visibility**
Novelty	**STRONG**
Alice Risk	**Low — concrete privacy architecture survives Alice well**

4. Book-to-System Conversion Pipeline

Automated ingestion of any published book → scoring frameworks, AI coaching sequences, content atomization, membership portal generation. Full end-to-end pipeline.

Prior Art	**ZERO direct prior art — genuinely novel pipeline**
Novelty	**VERY STRONG**
Alice Risk	**Medium — emphasize specific NLP extraction steps**

5. Group Privacy Dating / Community Deselection

Users deselect specific community groups (church, workplace) to become invisible to that group's searches while remaining visible to all others. Granular per-group control.

Prior Art	**None — existing dating patents focus on matching, not group privacy**
Novelty	**STRONG**
Alice Risk	**Low — specific data architecture for privacy controls**

Tier 2 — Moderate Novelty (Careful Claims Required)

INNOVATION	NOVELTY	ALICE RISK
6. Autonomous AI Coaching Engine	Moderate	High
7. Assessment-Triggered Referral System	Moderate	Medium
8. Whole-Life Matching Algorithm	**Moderate**	**Medium**

TIER 3 — TRADE SECRET RECOMMENDED

INNOVATION	NOVELTY	PROTECTION
9. 30-Day Challenge Engine	Low-Mod	Trade Secret
10. Appraisal Index System	**Moderate**	**Patent (crowded space)**

FILING BUDGET & TIMELINE

PHASE	ACTION	TIMELINE	COST
Phase 1	5 Tier 1 Provisionals	60 days	$17,500
Phase 2	Convert top 3 to Utility	12 months	$30,000
Phase 3	Remaining + Tier 2	24 months	$25–40K
Total	**5–10 Patent Portfolio**	**36 months**	**$72.5–$87.5K**

Impact on Valuation

Startups with patents are 2x more likely to secure VC funding and valued ~2x higher than non-patented peers (USPTO/UC Berkeley research). “Patent pending” status alone increases investor confidence significantly.

Priority filings: Book-to-System Pipeline (#4) and P.I.N.K. Multiplier (#1) have the strongest novelty positions with zero direct prior art.
