CONFIDENTIAL — PREPARED FOR STARTUP WARRIOR FOUNDER COHORT — APRIL 2026

VALUE TO VICTORY, LLC

The Assessment Engine *Nobody Else Has*

AI-powered whole-life assessment platform that scores, coaches, and monetizes across 14 market verticals — with live product, active users, revenue, and 10 patentable innovations. Built. Running. Ready to scale.

THE PROBLEM

- Assessment tools measure one thing (personality, fitness, skills) in isolation
- No platform connects how your finances affect your relationships, health affects your career, or time management multiplies everything
- Coaching is expensive, generic, and manual
- Employers get surveillance or nothing — no privacy-first insights

OUR SOLUTION

- **P.I.N.K. Framework:** Score 5 life pillars with Time as a force multiplier
- **Cross-pillar AI:** 20 directional relationships generate prescriptive coaching
- **Autonomous delivery:** Morning + evening coaching emails, zero human touch
- **Privacy-first:** Users control what employers see, per pillar

THE P.I.N.K. FRAMEWORK — OUR CORE IP

P	I	N	K	T
PEOPLE	INFLUENCE	NUMBERS	KNOWLEDGE	TIME ×

Time operates as a 0.1x–2.0x **multiplier** on all other pillars — not an additive score. This is architecturally unique. No prior art exists.

WHY WE WIN

1. **Multi-Pillar with Multiplier**
   Every competitor scores one dimension. We score five and multiply them. No prior art exists for this architecture.
2. **Privacy-First Enterprise**
   Users control per-pillar visibility. Employers get aggregate insights only. No competitor offers this granularity.
3. **Book-to-System Engine**
   Any published book becomes a full coaching system. Zero prior art. Unlimited licensing potential.
4. **Cross-Vertical Data Moat**
   Every user generates 80–120 scored data points across all life domains. At 100K users = 10M+ cross-dimensional data points that exist nowhere else.
5. **Autonomous AI Coaching**
   Morning motivation + evening accountability delivered automatically from assessment scores. Zero marginal cost per user.
