Why *Nikki*

Realtor & GA Certified Residential Appraiser. Savannah, Tybee, Pooler & Richmond Hill.

— *Your Next Pearl Awaits* —

Most Savannah agents tell you the same thing.

"Premier." "Elite." "Unmatched." Every brokerage page says it. Every listing description says it. The words have stopped meaning anything.

You're not looking for premier. You're looking for honest.

— Your Next Pearl Awaits.

One Realtor in Savannah is also a Certified Residential Appraiser.

Not five. Not three. One.

I've spent 21 years as a Certified Residential Appraiser, valuing Lowcountry homes for lenders, courts, and estates. I'm also an active Realtor representing buyers and sellers across Chatham, Bryan, and Effingham counties.

Most agents can show you a home. Few can also walk you through what the comparables show.

The credential is in the work.

Boutique guidance for boutique buyers.

- **Luxury buyers** who want a guide more than a salesperson
- **Downsizers and right-sizers** moving from large estates to coastal cottages
- **Relocators** from across the country and overseas
- **Lifestyle-driven professionals** who choose neighborhoods on Tuesday afternoons, not on Zillow
- **Sellers** who want appraiser-trained perspective on positioning, not flattery

I lead with relationship, not credentials.

Credentials get you in the door. Relationship is what makes the home feel like the right one — and what brings you back the next time you move.

The way I work:

- **I show you what the comparables show.** Not what I want you to hear.
- **I name the trade-offs honestly.** Pooler vs Richmond Hill, Tybee vs Skidaway — there's no perfect answer, and you deserve the real one.
- **I respect your time.** No 30-minute calls that should have been 10. No three follow-ups when one is right.
- **I stay in touch after closing.** Most agents disappear at the deed. I check in for years.

> *"She told me what my home was actually positioned for in the comparable bracket — not what I wanted to hear. We listed at her number. We closed in 18 days."*

> *"We were relocating from California with two kids and a dog and no idea where to start. Nikki spent the first 30 minutes asking about our Tuesday afternoons. By the third weekend we'd narrowed to two neighborhoods. We've been in Ardsley Park for nine months and she still texts about pollen season."*

The conversation is the deliverable.

30 minutes. No pitch. Just a real conversation about what you're trying to do — buying, selling, relocating, downsizing, or just thinking about it.

Pre-list comparable analysis is a strategic pricing review — not a USPAP appraisal. For lending, estate, divorce, or legal use, an appraisal report is required.
